

PSW-100 Datasheet

The PSW-100 is a 0-6 PSI pressure sensor. All power and data for operation is provided by the BDI SWP series chassis via a DB-9 connector.

Digitally Compensated for Low Total Accuracy and Interchangeability

- Gage Pressure, Vacuum, and Compound Ranges Available
- 1 to 5 Vdc 3 Wire Output
- Rugged Compact Design
- RFI/EMI Protection
- Reverse Polarity Protection
